She has abundant uniform colour fine dark fawn fleece.</p> <p>Eve has very interesting genetics being the first cria from Aquaviva Roma (a daughter of Eringa Park Aroma) and award-winning Styx River Tarragon (genetics from Brutus, Moonshine, Inti and Ledgers' Dream). The offspring of Eringa Park Aroma won championships in New Zealand and in Europe. Aroma has an excellent longevity of low micron fleece.</p> <p>Eve has not been mated yet, and the absence of birthing and motherhood experience is reflected in her price.
