

Aquaviva Alpacas

Aquaviva Aspiring Misty

Aquaviva Herd Reduction Sale

Misty and her cria Emilia (6 months old) September 2018

Name	Aquaviva Aspiring Misty				
Ear Tag	APND0130	Registry No.	107178		
Birth Date	6-Jan-2008	Sex	Female	Phenotype	Huacaya
Colour	Solid White				
Sire	Forest Glen Forestglen Ramses - W (62136)				
Dam	Aspiring Marion - LF (84284)				
Description	Misty is a proven and reliable mother with six crias successfully brought up to maturity. All her crias were healthy, and their colour varied from white to dark fawn. She has very good genetics with Ramses, El Dorado, Woolmaker and Sir Titus Salt in her family tree. She is a gentle and calm alpaca with a nice personality.				
Fibre	2011 (4th fleece): 24.5 micron, SD 4.5, 110mm staple length 2013 (6th fleece): 25.2 micron, SD 5.1, 69 mm staple length 2014 (7th fleece): 26.5 micron, SD 4.8, comfort factor 81%, CRV 53.7 2015 (8th fleece): 24.8 micron, SD 4.8, CV 19.4, comfort factor 87% 2016 (9th fleece): 28.4 micron, SD 5.5, CV 19.4, comfort factor 70%, 2017 (10th fleece): 27.2 micron, SD 4.8, CV 17.8, comfort factor 76%, CRV 49.9				
Current Mating	Misty has not been mated this year because her last cria was born in March, quite late in the season. We can provide a mating with our fawn stud Waratah Flats Achilles or white stud Highway Star Snowman at a discounted price if required.
