

Aquaviva Alpacas

AEA Highway Star Snowman

Aquaviva Closing Down Sale - \$500+GST ono

Name	AEA Highway Star Snowman				
Ear Tag	AEAG0037	Registry No.	1009015		
Birth Date	17-Mar-2011	Sex	Male	Phenotype	Huacaya
Colour	Solid White				
Sire	Homestead Farm Apollo - LF (84230)				
Dam	Waratah Flats Snow Owl - W (93685)				
Description	<p>Highway Star Snowman is jointly owned by Innisfree Alpacas (Daphne Durning and John Hyndman) and Aquaviva Alpacas. He is offered for sale by both these parties.</p> <p>We purchased a share in Snowman in 2015 to support our white / light fawn breeding programme. He has an abundant white fleece with very long staple, good staple length retained up to his seventh fleece. Every shearing delivered a very good weight of soft and even commercial fleece. As a junior he was Supreme Champion at the Rangiora A&P Show.</p> <p>Although Snowman is a working stud male, he has a very friendly temperament and he was sharing paddock with two other males. We find Snowman easy to handle and work with - which is an unde-rated attribute in a stud male.</p> <p>Snowman's genetics includes Benleigh Bellissimo through his sire Homestead Farm Apollo, and ILR Ppperuvian Auzengate through his dam Waratah Flats Snow Owl. Most of his ancestors were white but he has some colour genetics in the background.</p> <p>Snowman has had several healthy cria. We suggest that he is suitable for a huacaya farm who have a breeding programme focused on achieving an outstanding shearing weight of commercially viable white / light colour fleeces.</p>				
Fibre	<p>Recent fleece results include:</p> <p>2018 (8th fleece) 25.5 mic, SD 4.8, CV 18.9, CF 86.0%, staple 78mm, CRV 61.8</p> <p>2017 (7th fleece) 26.9 mic, SD 5.1, CV 18.8, CF 78.0%, staple 95mm, CRV 52.2</p> <p>2016 (6th fleece) 27.4 mic, SD 5.1, CV 18.7, CF 75.4%, staple 110mm</p> <p>2015 (5th fleece) no data</p> <p>2014 (4th fleece) 23.5 mic, SD 4.3, CV 18.2, CF 93.0%, staple 116mm, CRV 59.5</p>
